

Interview Performance Report

Candidate: Sameet Pisal

Email: sameetpisal@gmail.com

Role Assessed: Frontend Engineer

Date completed: 24/5/2026, 10:44:19 pm

Overall Score: 8.6/10

Technical Score: 8.3/10

Communication Score: 8.5/10

Problem Solving Score: 8.8/10

Code Quality Score: 8.3/10

Overall Feedback

The candidate demonstrates strong foundational skills for a Frontend Engineer fresher, particularly in modern CSS implementation and systematic problem-solving. While technical solutions were generally excellent, there's a need to improve on fully articulating approaches and contextualizing behavioral answers. Their ability to reflect and learn from experiences is a significant asset.

Key Strengths

- Proficient in modern CSS (flexbox) and good coding practices.
- Demonstrates a systematic and detailed approach to problem-solving and debugging.
- Strong ability for self-reflection and learning from past experiences.
- Provides well-structured and detailed answers to behavioral questions.

Areas for Improvement

- Omitted required explanations for technical solutions.
- Missed opportunities to fully contextualize behavioral scenarios (e.g., initial task).
- Did not explicitly mention leveraging external resources in problem-solving discussions.
